# VPN-networks

## Interconnect your branches or offices via vpn

Your employees in Hamburg need to access a central server in Munich? Our innovative MPLS-based VPN products make speed issues caused by IPSEC encryption and complicated configuration work a thing of the past. Our MPLS backbone makes this setup even without encryption just as secure. Our DSL-Business products are also available with wide coverage across a lot of other european countries.

## Sample Setup:

- 1 Headquarter
- 2 large branch
- 3 small branch
- 4 field staff

**Total cost per month : 452,- €**

Whether for your headquarters, a branch or the laptop of your field staff we provide a perfect solution.
